

Clear Skin Collection

Product | Clear Skin Spot Treatment 

Skin Edit | Combo, Oily, Blemish Prone

This fast acting, effective spot treatment helps to banish blemishes overnight. Zinc Oxide works to simultaneously calm irritation while working as an astringent, balancing oil production. Sulfur and Salicylic Acid help to unclog pores and rid skin of blemish causing bacteria. Cooling Camphor keeps skin calm and clear.

Directions | Do not shake. Nightly, dip a cotton tipped swab into the pink sediment. Touch swab to blemished areas of the skin. Allow to dry and remain on skin overnight. Rinse off in the morning.

Ingredients | Water (Aqua), Isopropyl Alcohol, Sulfur, Zinc Oxide, Salicylic Acid, Magnesium Aluminum Silicate, Camphor, Iron Oxides (CI 77491)

KEY INGREDIENTS

- **Sulfur:** a keratolytic agent that helps exfoliate dead skin cells keeping pores unclogged.
- **Zinc Oxide:** lowers inflammation allowing skin to heal. It also acts as a skin astringent helping to balance oil production.
- **Salicylic Acid:** a beta hydroxy acid that has keratolytic and antimicrobial benefits excellent for dissolving debris in clogged pores and getting rid of troublesome bacteria that cause blemishes.
- **Camphor:** has anti-bacterial and anti-fungal activity while reducing skin irritation.

Fun Fact | Extracted from the fragrant Camphor Laurel Tree, Camphor was an ancient Chinese remedy used to “open the orifices and awaken the spirit”. It was also used to repel insects!
